Skills

● Soft Skills

- **Communication:** Actively expressing ideas.
- **Collaboration:** Proficient in teamwork and cooperation.
- **Creativity:** Capable of devising inventive solutions.
- **Critical Thinking:** Strong problem-solving abilities for the logic and flow of the system.
- **Time Management:** Ensuring punctuality and meeting deadlines.

● Technical Skills

- **Wireframing:** Developing preliminary design drafts.
- **Prototyping:** Creating interactive models.
- **UI Design:** Visual interface creation.
- **Interaction Design:** User flow planning.
- **Sketching and Illustration:** Basic sketching and illustration skills to quickly visualize design ideas and concepts.

Experience

● Lead Designer - Yokai Express Project

HOOLI SOFTWARE COMPANY

Feb 2023 - SEPT 2023

- Took on the role of **Lead Designer** for the Yokai Express after 3 months of being involved in the project, where I **led the development** of wireframes and prototypes for Yokai's marketing website, mobile app, and admin interfaces for **Yokai's food ordering, and gift card designs for discounts.**
- **Collaborated** with cross-functional teams, including Software Engineers, QA experts, and Project Managers, to **discuss design requirements and user flows.**
- Handled the task of **providing weekly updates** and **presenting new designs** to the **client** for clear communication and to gather their feedback.
- Designed **marketing social media** assets for Yokai Express using Canva to **enhance the brand image.**
- Utilized **Adobe XD** to create interactive prototypes throughout the project.

● Technical Designer Intern

HOOLI SOFTWARE COMPANY

July 2022 - Oct 2020

- Created **social media graphics** (Instagram, Facebook, LinkedIn, and Twitter) using Canva to **boost the brand's online**
- **Updated** some of the **designs** on Kuponji's mobile app using **Figma.**
- Provided **regular design updates** and progress reports to the **client** to gather their **opinions and feedback**
- **Collaborated** closely with **team members** to **discuss** the needed design goals, application flows, and logic for the application.
